DETAILED ACTION

Claims 1, 19, 20, 22-27, and 32 are pending in this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 1, 19, 20, 22-27, and 32 are rejected under 35 U.S.C. 102(f) over Boger et al., J. Org. Chem. 2001, 66, 2207-2216. Applicant should show evidence of being the first to utilize bromine for the "X" variable in the instant claims. See Boger et al., page 2209, Scheme 1.

Claims 1, 19, 20, 22-27, and 32 are rejected under 35 U.S.C. 102(g) as being clearly anticipated by US 6,534,660, Yongxin et al. Yongxin et al. teach the instant process in page 1 of the patent. See the steps of preparing compounds 5 and 6.
